Hi Ehud,

I met yesterday Theodor Or, and for the first time he spoke with me about you with respect as well as criticism, while stating that the most difficult thing for him as the chair of the committee was the fact that you did not give a full disclosure to the government. However, he sent you his warm regards and wondered if you shall be back one day.

On another issue, I met with MF and AM last night. We are facing a problem. We need to schedule a serious talk about them. When can you talk?
